Address: Khumrah Al Quazain Jeddah

ABOUT ME

Experienced Electrical Site Supervisor with 5 years of hands-on experience in electrical installations, plumbing work, and solar system setups. I have supervised and managed on-site operations for villas, large houses, and residential construction projects, ensuring all work is completed according to safety rules, project requirements, and quality standards. Skilled in reading and understanding drawings, planning daily tasks, coordinating with technicians, and managing materials on site.

I work closely with teams to solve technical issues, guide workers, and keep projects running smoothly and on schedule. Known for my dedication, practical approach, and ability to maintain a safe and productive working environment, I consistently deliver reliable results across all types of site work.

WORK EXPERIENCE

June 2025 - Present, Jeddah, Saudi Arabia

ELECTRICAL SITE SUPERVISOR NESR AL-JAZERA KSA.

As an Electrical site supervisor:

- Supervised electrical work on-site and coordinated daily activities with electrical technicians.
- Installed, maintained, and repaired electrical systems, including wiring, meter boxes, cabinets, transformers, substations, and switches.
- Identified electrical faults using testing tools and carried out effective troubleshooting and repairs.
- Resolved power supply issues to ensure safe and uninterrupted electrical operation.
- Conducted electrical meter surveys and inspections and verified correct installation and connections.
- Checked meter accuracy, recorded readings, and reported any faults or irregularities.
- Ensured all electrical work followed safety rules, site procedures, and company standards.
- Assisted in planning daily work schedules and monitored progress on site.
- Coordinated with other site teams to complete electrical tasks as per project requirements.

May 2023 - May 2025, Jeddah, Saudi Arabia

ELECTRICAL SITE SUPERVISOR ABDUL AZIZ IBRAHIM AL AYAFI KSA.

As an Electrical site supervisor:

- Supervised all on-site electrical works, including wiring, conduit installation, cable pulling, DB and panel installation, ensuring that all tasks were completed according to approved drawings and technical standards.
- Reviewed electrical plans and layouts carefully and guided the team to follow the correct procedures to maintain accuracy and quality in the work.
- Coordinated daily with engineers, foremen, workers, and subcontractors to align work schedules, resolve issues, and keep the project moving smoothly.
- Conducted regular inspections of the site to check the quality of work, identify any mistakes, and ensure all installations met safety and project requirements.
- Managed and supervised electricians and helpers by assigning tasks, monitoring productivity, and providing clear instructions to maintain high performance.
- Oversaw complete installation of electrical, plumbing, and solar systems for villas and large residential properties, ensuring timely and efficient completion of work.
- Monitored and managed site materials by checking quantities, ensuring the correct items were available, and preventing delays due to material shortages.
- Handled troubleshooting and solved technical faults on site, making quick decisions to avoid work stoppages and maintain progress.
- Installed and configured HP HDMI cameras on-site, ensuring proper wiring, alignment, and clear video output.
- Prepared detailed daily and weekly progress reports, documenting completed tasks, pending work, and any site challenges for the project management team.

SITE SUPERVISOR WARM IQ ELECTRICAL.

As a site supervisor

- Supervised electrical meter installations for both single-phase and three-phase connections, ensuring proper setup and adherence to utility standards.
- Monitored safety compliance on site for electrical and fire-safety areas, ensuring all workers followed PPE requirements and basic safety rules.
- Conducted pre-installation checks on electrical materials and equipment to confirm correct specifications, quality, and readiness before installation.
- Inspected UPS battery installations to verify secure connections and safe placement for reliable operation.
- Observed and assisted in commissioning preparations, ensuring systems were correctly connected, labeled, and ready for testing.
- Prepared routine site progress updates, reported installation issues, and coordinated with engineers and workers to keep daily tasks on schedule.

Jan 2018 - 2020, KPK, Pakistan

ELECTRICAL SUPERVISOR RASTGAR ENGINEERING COMPANY

As a Electric site supervisor:

- Supervised operation and maintenance of HV and LV distribution systems, ensuring stable and safe power supply.
- Identified and repaired faults in power lines, transformers, and electrical equipment to restore smooth operation.
- Oversaw the installation of HV/LV lines, electrical machinery, and plumbing systems, ensuring correct and safe setup.
- Installed and configured HP HDMI cameras on-site, ensuring proper wiring, alignment, and clear video output.
- Conducted inspections and testing of electrical components to verify quality, safety, and compliance with standards.
- Coordinated with technicians and control teams for planned maintenance, troubleshooting, and outage handling.
- Ensured strict adherence to safety procedures, PPE usage, and company electrical regulations at all times.
